STOCKS.

It looks as if the boom had been stopped by the insiders because the outsiders did not respond with the alacrity expected of them. The depression which set in yesterday afternoon continued in the first session of the Board this morning. There was a shading off in prices and very little demand for stocks. There is still confidence that there is to be a lively market ere long, but prices positively refuse to keep pace with the confidence. Be tween sessions there was very little change. the market maintaining the same figures in many of the stocks and showing a slight drop in others. In none of the leading stocks were there any advances. In the second session every stock on the list fell away. In the water and north-end stocks the decline was only

A FELLOW FEELING. - When Edwin Forest the actor, died, a supe standing in front of Piper's Opera House remarked with a sigh: " Another one of us gone."

Last night when Otto Greenhood heared that Joe Coburn, the pugilist, had been shot in Deadwood he exclaimed to the crowd :

"How we heavy hitters are passing away! THE PLACE TO Go.-If you want a good

berti's building, No. 76.

THE FROZEN TRUTH.

TERRIBLE DESTRUCTION OF JACK RABBITS BY COLD-WHAT A BUNTER SAW IN KING'S CANTON-ACRES OF CONGEALED GAME.

Ever since the cold snap the Washoe and Pinte Indians have been selling jack rabbits in astonishing quantities at figures which have ruled considerably below their usual market prices. Bill Jackson, who has been out hunting and prospecting for a week or ten days past, tells a remarkable story in connection with the bountiful supply of rabbits which the Indians are at present furnishing. ACRES OF PROZEN RABBITS

A few days ago he visited King's Canyon and there asserts that he found acres of juck rabbits frozen stiff on the ground. Rather than shoulder the responsibility of the remarkable statement, the APPEAL gives the yarn in Jackson's own words :

"You see, the cold snap drove the the rabbits into the canyons out of the wind. One moonlight night I came across a drove of over five hundred making for the canyon. They were all huddled together, getting as much warmth as possible from each other's bodies. The drove were packed together as close as the threads of a three-ply carpet, and as they moved along they looked like a big army blanket drawn over the ground. They passed close by me, and when I fired into the drove with a shot gun, eight or ten dropped, but the balance closed right up and passed on as before. This drove was making for Ash canyon. I didn't think at the time exactly what was up, but a few days ago I was up in King's canyon and there I saw a sight which was the most uncommonest thing I ever glued my eves to. There were the rabbits-acres of em-all huddled together in a bunch, and packed like sardines, and every blasted one of 'em freze stiff as a wedge. I turned up the edge of the mass with my gun and broke off a slice with a dozen in all stuck together.

A HEBVEST POR THE WASHOES. Presently some Indians came along and began to yell. They concluded they'd struck a meat bonanza, and they've been luggin' off the rabbits ever since. That's the reason rabbits are so cheap around the town. Why out in the brush you can find whole gangs of 'em standin' on their hind legs and frozen stiff. I shot a single one the other day 'spoin' he was alive.".

Other hunters report thousands of frezen jack rabbits in Carson Valley, although none have as yet viewed the astonishing sights deseribed by Jackson. Hank Monk corroborates Jackson's varn, but save that the present crisis in the affairs of the jack rabbits isn't to be compared with the general destruction of the animals in '69. He asserts that "every darged rabbit on earth was frozen stiff."

MORE AND MORE.

Yesterday morning Hank had more about rabbite :

"That's all true what Jackson says, but he had'nt told half. Yesterday I seed hundreds of them rabbits thawin' out. It is a fact, Whenever the sun hit 'em hard they'd limber up, give themselves a shake and skip away for the sagebrush. Little sugar and gin? Guess I will."

Dobson's BAD MATCHES. - A few weeks ago Dobson's wife presented him with an elaborate match safe as a token of her affection. It was done in bead work, card board etc., and ornamented with worsted flowers. He hung it up in the bed room and Mrs. Dobson concluded that it would be just the thing to throw waste matches in. Before long she had about a hundred matches in the box each one of which had been burned at the brimstone and. On Saturday night Dobson came home from the club a trifle flushed, and attempted to strike a light with these waste lucifers. He scratched the walls with the burnt matches, also the bottom of his shoe, likewise the broad portion of his lavender pants. After trying about a dozen he began to be profane and tumultuous and got so mad he kicked over furniture at hap hazard and scraped matches on his pants by the handful. He finally went to bed in the dark and when his wife explained next morning what the match box had been used for he said it was the saddest moment of his existence. He has since sent an order for one of Edison's electric lights and proposes to pended upon a trick, he might regain his have it in his house no matter what the cost may be. Until it arrives, however, he will purchase his matches at Cheney's corner

A STAY OF PROCEEDINGS IN THE PRITCE AND CASE .- Yesterday morning Col. Robert Taylor, counsel for John T. Pritchard, con demned to be hung on the 16th of this month for the murder of Humphrey Symons, filed s transcript of the testimony taken in the trial before Judge King and moved for a new trial Col. Taylor claimed that the Judge erred in refusing the defense the right of challenging the jurer C. O. Appleburg after panel was completed, and exceptions were also taken on several other points. The Court decided that the defense passed its right of peremptory challenge and thereby ferfeited any further privilege on that score.

The Supreme Court has issued a writ of supersedess and granted a stay of execution. The time set for hearing the argument on application for new trial is set for the 26th inst.

Losr. - A double-nosed setter pup, with tag spuare meal, go to Hunt's New Chop Stand, marked D. McK. Any one leaving the same opposite the V. & T. R. R. depot, Calim- at G. D. Fryer's Siphon Saloon will be suitdi8-1m ably rewarded.

BRIEF MENTION.

Walter Crownshield has taken charge of the new post-office at Como.

A. C. Pratt, proprietor of the Carson Valley News, is in the city.

The three children of C. S. Varian are dangerously ill with scarlet fever at Rono.

Misses Mollie Kittrell and Kate Hodgkin-

son will return to the Berkley University this A man who enjoys good eigars, and is a judge of the article, will find it to his advan-

tage to call at the Post Office Cigar Stand,

None but the best are sold there A \$3 plaster was put on Sierra Navada yes terday. During the past eighteen month about a million and a half has been paid it assessments. Where has the money gone?

Now that the cold weather is upon us every man, woman and child in Carson will want a good, thick pair of gloves, not so much for style as for warmth. M. W. Hodkins, opposite the Arlington House, makes the best on the coast. His hand sewed buck gloves are :

The Gold Hill News says that a few nights ago a crowd of Carsonites tapped a faro game in Virginia City for \$3,000 and "made Rome howl" with the money. The probabilities are that they won \$26. A crowd of Carson ites on a bust can easily make enough noise n spending \$26 to lead an outsider to infer that a \$3,000 bust is in progress.

If parties coming to the city will persist in falling into the numerous dens calling themselves by different "Uncles," and find after purchasing that they are swindled, it is their own fault. Take the little trouble to see Uncle Harris' name painted on the windows of his store. Go first and see him, get his guarantee (written), and you will find that you have bought any article for half store prices. Remember the number, 221 Kearney street, between Bush and Sutter.

UNIVERSAL POSTAL CARDS.-It is the general impression that the Universal Postal Union cards, which have just been issued by the Postoffice Department, will be forwarded from the Postoffice to all parts of the world, but such is not the case. They only go to countries known as postal countries or those embraced in the Postal Union. For the information of those who have correspondence with foreign countries, the names of those places where the cards will not be sent are an nexed: Ascension, none of the Australian colonies, Bahaima Islands, to no part of Africa except Liberia, the British, French, Spanish and Portuguese rossessions : Bolivia, Cape of Good Hope, Chile, Costa Rica, Equador, Fiji Islands, Guatamala, Hayti, Madagascar, Morocco, Island of Nassau, Natal. New Zealand, Paragua, Patagonia, Island of St. Bartholomew, Island of St. Helena, St. Domingo, Hawaiian Islands, Siam Turks Island, Urugary and Venezuela. The Uni versal Postal Union cards will be sent to al places in the world where there are postal facilities, except those enumerated above. Of course Carson people having correspondents in Patagonia and the Cape of Good Hope are. as it were, left out in the cold as far as cheap mail facilities are concerned. Such people will have to pay six cents in order to send a letter abroad, instead of using a postal card -a dead loss of five cents.

CARLTON CURED. -On the 17th of December a teamster named Henry L. Carlton from Esmeralda county passed through this city en route for Stockton, in charge of a deputy Sheriff. He had gone crazy endeavoring to work out a puzzle. The APPEAL made a note of the fact and gave a history of the circumstances which dethroned the unfortunate man's reason. At the time the article was generally looked upon as a hoax. It was however copied in the San Francisco Chronick and through that means reached the eye of Henry R. Lloyd who resides at 710 Bush street. He sent the APPRAL an explanation of how the puzzle could be worked out, showing that it was simply a trick. His idea was that if the man was made to see that the whole thing desenses. The explanation was published in the APPRAL and forwarded to the man's friends who made it clear to him. In a few days he had recovered from his temporary aberation and is now fully cured. He called at the Ar-PRAL office last night, in company with his brother, to express his thanks for the publicity it had given his case, thereby causing outside parties to interest themselves in his behalf. He also subscribed for the APPRAL, paying in advance. Mr. Carlton will leave for home in a few days.

DANCING SCHOOL - Professor H. C. Schubert has opened a dancing school here and will teach the art of dancing the coming Winter. He has secured Corbett's Hall, over Harris Brothers, and has already secured the patronage of some of the leading families of Carson. His terms can be had on application.

FUNERAL OF DAVID McLain .- David Mc Lain was buried vesterday afternoon from the Methodist Church. He was a man who had passed the allotted time of life, being 75 years of age when he died. He had many friends in this community, and a long line of car-4.1 risges followed the remains to the grave.

RARB TYPOGRAPHICAL PRAT -There has been considerable talk about the "intelligent compositor" but the "bloated blondering comp." is oftener found in a printing office. Last night a Comstock compositor came to the APPEAL composing rooms and wanted to "sub" for somebody. One of the compositers was sick and he took his place temporarily. Now, in writing an article a reporter piles his pages, one on the other so that if he writes ten pages No. 1 is on the bottom and No. 10 at the top. Such an article was handed to the new man in a hurry last night under the supposition that he would have sense enough to reverse the pages. But the fells w actually set them backwards, beginning with ten, nine, eight, and se on, setting the tirst page last. He simply "followed copy," and the frightful sense occasioned by joining the top and bottom of the wrong pages never struck him as extraordinary. He said he thought of going to San Francisco to start a religious weekly.

THE WORD "SOZODONT,"

Which has already become a household word, is derived from the Greek, and composed of two words, Sozo and Odontes. Sozo," translated, means to preserve, and 'Odontes" the teeth-"SOZODONT" a preserver of the teeth. And it is true to ts name. It beantifies and preserves the teeth, hardens and invigorates the gums, and corrects all impurities of the breath. The oder of this pure preparation is so delightful that it is a luxury to apply it. It is as harmless as water. Sold by druggists d12-1m and perfumers.

PIANOS AND ORGANS-At San Francisco prices, can be had on easy terms at the rooms of the Reform Club. Mr. Vann will give personal attention to customers, and explain the peculiarities of the various makes. All instruments fully guaranteed and shipped direct from Kohler & Chase, San Francisco. No agency, no profits to middlemen and no risk. Instruments sold on easy installments and old ones taken in exchange. The Decker piano, which is better than the Steinway or Webber, is just the thing for Christmas, and can be forforwarded \$150 cheaper than any piano in the market.
